## **The 1<sup>st</sup> Global Architectural Design Competition**

### **Hometown of Overseas Chinese**

#### **Introduction**

Guangdong is the largest hometown of overseas Chinese. Our ancestors left their hometown for foreign countries. They went overseas to new horizons for studying, working or living. However, they missed their hometown and wished to serve it by all means. When they subsequently returned to their hometown, they brought with them overseas culture, new knowledge or technology and modern living ideas as well as their offsprings. Based in the conclusiveness of Guangdong culture, Jiangmen's architectural culture is gradually formed, which combines traditional culture and nature with innovation and absorbs both western and eastern philosophy.

Apparently, the unique Lingnan style architecture of humanism has also been transformed by the returning overseas Chinese. It is gradually influenced by their inception of western architectural culture.

As is known, Jiangmen is the first hometown of overseas Chinese in China. There are more than 3, 000 Diaolou as architectural treasure with the integration of western and eastern culture and the world non-materials cultural heritage. Such mix makes Jiangmen a "Hometown of Overseas Chinese"(HOC).

To promote the balanced mix of Chinese heritage and modern architecture, we organize this competition, namely Liang Sicheng Cup. Through this “Global Architectural Design Competition – Homeland of Overseas Chinese”, we expect to boost the global designers’ passion towards the integration of Chinese heritage and western architectural culture that has been well demonstrated in Jiangmen.

Liang Qichao, a native of Xinhui, Jiangmen, was a renowned Chinese philosopher, thinker and educator. Three of his sons, Liang Sicheng, Liang Siyong and Liang Sili, were elected as academicians, making the Liang family a legend. Liang Sicheng, along with his wife Lin Huiyin, established an important place for Chinese architectural design and culture in the world, as they made indelible contributions to the research and preservation of ancient Chinese architecture, as well as the inheritance and development of Chinese humanistic architectural culture. The 1<sup>st</sup> “Liang Sicheng Cup”, the Global Architectural Design Competition-Hometown of Overseas Chinese, authorized and sponsored by Mr Liang Sili and Mr. Liang Sicheng's descendants and held by the Chinese Humanist Association of Guangdong (CHAG) and Jiangmen Housing and Urban-Rural Department, is of special social significance. Participation of designers all over the world are welcomed, and we look forward to all kinds of help and support to promote the development of Chinese humanistic architecture.
