BA (ARCHITECTURE)
COURSE INFORMATION
FOR 2018/19 COHORT ONWARDS

4-Year B.A. (Arch.) (Hons.) Programme

The B.A.(Arch) is a four-year honours degree programme that comprises a general programme and three other design-focused tracks -1) Design, 2) Landscape Architecture (LA) and 3) Urban Planning (UP). The curriculum content for the first three years is common to the general as well as the design-focused tracks.

The general programme terminates at the BA (Arch) degree whereas the design focused tracks are concurrent with the Master of Architecture (M (Arch)), Master of Landscape Architecture (M (LA)) or Master of Urban Planning (MUP) degree programme. Only students who have achieved creditable grades in design, i.e. at least a B or B- in design at the third year (depending on the track of study) will be permitted to opt for a design focused tracks.

Students who are not eligible for the design focused tracks will continue in the general programme in their fourth year of study, leading to BA (Arch). Under this programme, students will no longer be required to take the design modules at fourth year. In its place, students will take elective modules with options to focus on Design Computing, Architectural & Urban Heritage or Urban Studies. Students who graduate with a high CAP in the general programme would continue to have the opportunity to pursue other graduate programmes.

Career Opportunities and Professional Registration

Graduates with an B.A.(Arch) degree who have completed modules related to Design Computing, Architectural & Urban Heritage or Urban Studies could work within these areas in architectural practices, government agencies or in research.

Graduates would also have opportunities to work in related fields including and not limited to interior design, industrial design, industrialised building systems, graphic design, commercial art and architectural journalism. Graduates who complete the Landscape Architecture (LA) or Urban Planning (UP) specialisation may also work in fields related to their specialisation.

The B.A.(Arch) degree does not in itself qualify graduates for registration with the Board of Architects. In order to eventually register as an architect with the Board of Architects, Singapore. B.A.(Arch) graduates must complete the M.Arch degree and serve a minimum of two years of practical experience in an architectural practice to be eligible to sit for the Professional Practice Examination conducted by the Board of Architects, Singapore. Those who pass the examination are then eligible to apply for registration as architects.

Design Focused Tracks

Students who have achieved creditable grades (B or B-, depending on the track of study) in design at the third year will be permitted to opt for the design-focused tracks.

The Design track will lead to the M.Arch degree programme. The Design track offers students the opportunity to focus on design ideas, innovation and conceptualisation from a theoretical framework.

Students who obtained at least B average in design at third year level are eligible to be considered for Urban Planning track. The UP track allows students to proceed to the Master of Urban Planning programme subjected to fulfillment of the admission requirement.

The Landscape Architecture track enables students to migrate to the Masters in Landscape Architecture (M.LA) programme. The LA modules will be offered at the third and fourth year. Students who have opted for the LA track after completion of second year but fail to achieve B- for design modules at third year will pursue the general degree programme.

Please refer to Table 1 for admission criteria to the general programme and design-focused tracks in the B.A (Arch) programme.

Graduation Requirements for four-year B.A. (Arch.) Programme

Students are required to take all essential modules offered in the semester to which they have progressed, provided they have passed the relevant prerequisites. In addition, they may take modules to satisfy University and other requirements.

Minimum Graduating criteria for

B.A. (Arch) : Minimum Grade C for Design and CAP 2.0
 B.A. (Arch) Hons. : Minimum Grade C for Design and CAP 3.0

Students who exit the concurrent degree programme at B.A. (Arch) Level 4 and consequently seek admission to M.Arch./M.LA/MUP would be required to fulfil a minimum CAP of 3.5 and other criteria governing admission as determined at the point of application.

Progression for the Architecture Concurrent Degree Programme

The admission requirements for various tracks of the M.Arch, M.LA and MUP programmes are summarized in Table 1.

Students will receive both B.A. (Arch) Hons./B.A. (Arch) (depending on his/her CAP) and M.Arch./M.LA/ MUP degrees concurrently upon completing the Masters programme.

Teaching Approach

Design modules are taught through design studios. Critique sessions will form part of the studio procedure in teaching. Lecture modules include formal lectures, followed by seminars/tutorials. Field trips, site visits, measurement and study of buildings for research, investigation and documentation may be involved.

Assessment and Examination

Assessment criteria will vary according to the modules offered. In the Department of Architecture, design modules are assessed by 100% “continuous assessment” (CA). The other essential modules may also be assessed by 100% CA or a combination of CA and Examination.

Students who fail an essential module will retake the module when it is next offered and must sit for the examination in that Semester. A retake module refers to a module where students have to attend lectures and tutorials and complete assignments and examinations. A new CA grade has to be obtained.

Students who fail a GEM/SS/Breadth/UE module may either replace it with a new GEM/SS/Breadth/UE module or retake the failed module the following year. There is no limit to the number of times a student may retake the same GEM/SS/Breadth/UE module.

A student who has passed the examination of a module will not be permitted to retake the same module again for the purpose of improving his/her grade. This condition does not apply to the Design modules where the prerequisite for progression to the next level is a “C” or “S” grade. Students who achieve a “D” or “U” grade would be required to retake the Design module before they can proceed to the next level of study.

Progression of Students

Min. MCs (in general) for promotion to the next level	ARK1 -> ARK2 [≥ 40 MC] ARK2 -> ARK3 [≥ 80 MC] ARK3 -> ARK4 [≥ 120 MC]
Additional requirements	Must pass Design with a minimum C or “S”** grade ** Applicable to AR1101/ AR1102 if students declare S/U for the module(s) under the S/U policy (for 2016/17 cohort onwards)

Degree/ Honours Classification

Successful candidates of the B.A. (Arch.) course are awarded the degree based on the following classification:

Honours Degree Classification	Criteria
Honours (Highest Distinction)	CAP 4.50 and above
Honours (Distinction)	CAP 4.00 – 4.49
Honours (Merit)	CAP 3.50 – 3.99
Honours	CAP 3.00 – 3.49
Pass	CAP 2.00 – 2.99
